EVENT DETAILS

Theme	Fintech Virtual Roundtable: How can fintechs build a foundation for growth?
Synopsis	<p>As the start-up scene goes from strength to strength in Singapore – evolving at pace post-pandemic – fintech businesses are building plans for future growth.</p> <p>Motivated by a desire to access capital and drive scale, emerging organisations are leveraging technology to overcome early-stage launch challenges amid plans to widen market reach and strengthen product capabilities. Central to such efforts is a strategic approach to IT infrastructure, leveraging hybrid and multi-cloud capabilities to overcome prohibitive cost structures and restrictive business models.</p> <p>This exclusive virtual roundtable session, in association with Hewlett Packard Enterprise, will outline how fintech organisations can build a foundation for future growth, documenting key challenges ahead and examples of best practice in relation to technology deployment.</p> <p>Key discussion points include:</p> <ul style="list-style-type: none">• Documenting key challenges impacting fintech businesses• Outlining the role of technology in realising growth ambitions• Highlighting how to leverage IT infrastructure to achieve scale
